ABOUT ME

I am a Web Development student focused on front-end with foundational knowledge in back-end technologies, with experience in HTML, CSS, JavaScript, PHP, and MySQL.
I am interested in creating accessible, functional, and responsive interfaces.
I am organized, solution-oriented, and motivated to learn and collaborate with a team on real-world projects.

PROJECTS

Check out my portfolio: https://catarinaventura.github.io

Both projects were developed during my course at Master D for evaluation purposes, and they share several similar features, such as:

- Registration, login, and shopping cart systems
- Management of users, products, and/or events
- Full CRUD task management with database integration
- Responsive and accessible design

ILLIT DATABASE - Front-end + Back-end

HTML, CSS, JS, PHP, MySQL

- Information Website about the musical group “ILLIT”
- Includes a store page for purchasing albums and merchandise
- https://github.com/catarinaventura/illitdatabase

Vengeance - Front-end + Back-end

HTML, CSS, JS, PHP, MySQL

- Event Website with Ticket Purchasing System
- https://github.com/catarinaventura/vengeance

BONUS CERTIFICATIONS

User Experience & User Interface Design Bootcamp

EDIT. - Disruptive Digital Education
